Troubleshooting

1. Cannot connect the device to the Govee Home app?

- Ensure the device is powered on.
- Check if the Bluetooth on your smartphone is enabled or try connecting with another smartphone.
- When connecting for the first time, ensure your smartphone is close to the device.
- If you're still experiencing a connection error, delete the connected device from the "My Device" page on the app. Then, reconnect to the Govee Home app, following the instructions provided previously.

2. The device lost connection?

- Ensure the device is powered on.
- Shorten the distance between the device and the router to less than 50 inches, then reconnect.
- If the device continues to lose connection, delete the connected device from the 'My Device' page on the app. Then, reconnect to the Govee Home app, following the instructions provided previously.

3. Cannot pair or connect with Alexa or Google Assistant

- Ensure the stability of the Wi-Fi connection.
- Go to the "Device Settings" page and click "User Guide" to follow the instructions to pair the device again.

4. The synchronization effect for Music mode is not working properly

- Ensure the is close to the music source to help the mic pick up sounds better.
- Try switching the mic source to the smartphone.

5. Can multiple users control one device?

- Each device can only be controlled by one account.
- If multiple users want to control the same device, ensure that they are all using the same account.

FCC and ISED Canada Statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
- Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-005.
Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.
